## THEOLOGICAL INDEX;

Or, Reference to the Principal Works in all Departments of Religious Literature. Alphabetically arranged under two thousand heads, and embracing nearly seventy thousand citations. By HOWARD MALCOM, D.D. One volume. Royal octavo. \$4.00.

This important production has been almost the life-work of Dr. Malcom, and no library can hereafter be deemed *complete* which does not include this work.

From Pres. Walker, of Harvard College.

"In looking over the advance sheets of your Theological Index, I have been struck with the amount of labor it must have required to collect and classify so many titles of books on theoretical and practical religion, and the kindred topics. But it bears no proportion to the labor it will save others. The need of such a work is more and more felt. Some theologians, as you say in your Preface, may perhaps wonder at some of your omissions. But the index is not intended for them so much as for the working clergy, who, in consulting or purchasing books, need just such a guide, and will be greatly helped by the one you have provided."

From Prof. Hackett, D.D., Newton Theological Institution.

"I have examined your sheets with much interest. I think well of the plan. The book will enable those who wish to form a library to select books judiciously, and afterward to use them with advantage. It is not enough to have books in our possession; we need also an index to their contents, at the right moment, to show us whether the information we seek is within our reach. Your book supplies that want. I am sure it will lay very many persons under lasting obligations to your industry, skill, and scholarship."

From S. S. Schmucker, D.D., Theological Seminary, Gettysburg, Pa.

"After having examined the several sheets of your Bibliographical Manual or Lexicon, I take great pleasure in bearing testimony in favor of its diversified and decided utility."

"It affords a vast amount of information, more valuable to students, pastors, and preachers, because more available for the purposes of professional life. One who has access to but a moderate library, will, by the aid of this work, seldom fail to find important material for his purpose, and I cannot doubt it will meet a cordial reception from those whose benefit it contemplates."
